

PU on Cast Iron Core (Red)

Wheel Features

Tread Material:	PU	Core Material:	Cast Iron
Bearing:	Ball Bearing	Tread Hardness:	95A±3
Temperature:	-25°C~60°C	Running Speed:	4km/h

- 2 precision ball bearings, flexible rotation
- Polyurethane on casting iron core, high load capacity, wear resistance, oil resistance
- Environmental protection, quiet, effectively protect the floor
- With iron covers,thread-proof design
- Painted,anti-rust and anti-corrosion
- High temperature and humidity may shortened service life.

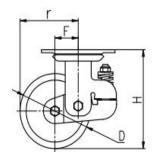

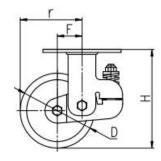

Rolling resistance	Very good
Wear resistance	Excellent
Operating noise	Very good
Floor surface preservation	Very good

Bracket Features

- ON/OFF pedals, stable braking effect, easy to operate
- Steel plate pressed and fully welded, firm and strong
- 📿 Dustproof ring effectively protects grease for long sevice life
- Good damping performance, effective buffer, ensure balance and stability
- Galvanized,salt spray test over 72 hours
- Wheel brake only, without direction lock function

Product Details

ON/OFF brake is easy to operate.

Single spring shock absorption can effectively buffer and ensure balance and stability.

Iron cover is beautiful and anti-winding.
